

Lockout/Tagout (LOTO)| Interactive eLearning

Lockout/Tagout - WXSA105-XX01XEN-E2

Objective 3: Describe How to Use LOTO to Safeguard a Machine

LOTO Authorized Personnel

When LOTO procedures are in place, only authorized personnel may work on faulty equipment.

The person who secures the LOTO device is the only person who can remove it after maintenance or when repairs are complete.

This person should be either a trained and authorized supervisor or a safety representative.

eLearning Course: MXSA105

Amatrol's Lockout/Tagout eLearning Multimedia Courseware (MXSA105) covers major topics like hazardous energy, lockout/tagout (LOTO), and energy-control programs (ECP). This LOTO online training course allows learners to study objectives like using LOTO to safeguard a machine, requirements of a LOTO device, and ECP training. LOTO procedures help to avoid preventable workplace accidents and injuries.

Teach Workplace Safety Skills

Amatrol's online LOTO training curriculum is unique in that it thoughtfully combines in-depth theoretical knowledge with practical, hands-on skills. This powerful combination of knowledge and skills solidifies understanding and creates a strong foundation for pursuing more advanced skills.

Interactive Multimedia

Highly-Interactive Multimedia Format Appeals to All Learning Styles

Amatrol's Safety eLearning course curriculum features a highly-interactive multimedia format. Stunning 3D animations, videos, pictures, voiceovers of all text, and interactive quizzes and exercises bring learning to life. Amatrol's multimedia curriculum contains elements that will appeal to every learning style, keeping learners motivated and engaged.
